## THE NEW SPIRIT OF WORLD MUSIC

 [ethno-world.org](http://ethno-world.org)    [info@ethno-world.org](mailto:info@ethno-world.org)    Ethno    Ethno\_World

Ethno is Jeunesses Musicales International's program for folk, world and traditional music. Founded in 1990, it is aimed at young musicians (13-30) with a mission to revive and keep alive global cultural heritage. Present in over 13 countries, Ethno engages young people through series of annual international music camps, as well as workshops and concerts, working together with schools, conservatories and other groups of youth to promote peace, tolerance and understanding.

At the core of Ethno is a democratic peer-to-peer learning approach whereby young people teach each other the music from their countries and cultures. It is a non-formal pedagogy that has been refined over the past 25 years, embracing the principals of intercultural dialogue and understanding. Ethno provides a unique opportunity for young people from across the globe to come together and democratically engage through music in a manner that is characterised by the respect, generosity and openness.
